Experienced backend developer with 4+ years of expertise in developing and maintaining **Enterprise-level Backend Systems**. Skilled in migrating from monolithic to **Microservice-based Architecture**, enhancing system efficiency and scalability.

SKILLS:

- **Java Backend Development**
- SpringBoot Framework
- Microservices Architecture
- Event Streaming - Kafka
- RESTful API Design
- **Nest.js Backend Development**
- Container Orchestration - Kubernetes
- Firebase Cloud Integration
- SQL, NoSQL Database & Data Warehousing
- Agile Software Development

WORK EXPERIENCE:

BlackRock, Green Package Risk Portfolio

Software Engineer | Jan, 2021 - Aug 2023

- Implemented a **SpringBoot** backend for Green Package Software group, a suite of portfolio risk reports for institutional investors.
- Migrated from monolithic to **Microservices Architecture**, resulting in a 50% increase in system scalability and a 40% reduction in maintenance costs.
- Leveraged multiple frameworks and tools such as **Spring, SQL, MVC, Kafka, ORM, Mockito, Git**.
- Integrating **RESTful Web Services**. Collaborated with the front-end team, resulting in a seamless user experience.
- Looked into production issues on **Latency, Queue** and **Cache Management**. Monitored server health using **Grafana** and **Splunk**.

Krane Apps

Co-founder | Sep, 2023 - , July 2024

- Implemented **Nest.js/Express.js** backend for a variety of client projects ranging from office productivity, delivery, to dashboards.
- Implemented high-performance **RESTful API** & **GQL** that improved the overall speed and reliability.
- Collaborated with cross-functional teams to integrate third-party APIs and platforms like **Firestore Auth, Google Cloud Functions, NoSQL** Database.

RELEVANT PROJECTS:

Repo Rewards Winner of EthGlobal Hackatron [link: Eth Global](#)

- A platform designed to reward **open-source developers** for their contributions directly on GitHub. We've streamlined the process of managing and distributing funds across **multiple blockchains**

Mobile Application IndiScan | [link: Market Place](#)

- Developed an Android mobile app named Indi Scan, utilizing **Firestore** for backend services. Implemented **Firestore Authentication** for secure user login and management.

EDUCATION:

2017 - 2021 | Manipal Institute of Technology

Bachelor of Technology - Information Technology
